LIBRETTO U100

Uncompromising performance in the palm of your hand

The stylish, extremely compact and lightweight mini-notebook does not compromise on technology. The broad variety of connectivity features and the detachable portable "libretto DVD Dock" (incorporating SuperMulti drive), makes it extremely versatile. With its long battery life and EasyGuard support features, the libretto U100 provides high reliability and connectivity for extreme mobile environments.

CAREFREE MOBILE COMPUTING WITH TOSHIBA EASYGUARD

Toshiba EasyGuard is the better way to enhanced data security, advanced system protection and easy connectivity. Equipped with Toshiba EasyGuard for carefree mobile computing including:

- Safeguard your data with HDD Protection, including anti-shock features and full 3-axis motion monitoring
- Fingerprint sensor technology to support user authentication and secure access, as well as easy application selection, launch and control
- Toshiba Summit software to increase productivity, featuring efficient wireless conferencing functionality – including file sharing and chat
- Enhanced mobility with Toshiba ConfigFree™ software for simplified wireless and wired connectivity

ALL-IN-ONE CONVENIENCE

- Bundled detachable libretto DVD Dock with DVD SuperMulti drive for fast and convenient access to CD/DVD-based content
- SRS® TruSurround XT™ and WOW™ technology deliver virtual surround sound and 3D audio effects for exceptional audio playback
- The new Express Media Player button allows instant-on access to CD/DVD playback without booting the operating system

STYLISH AND LIGHTWEIGHT MOBILITY

- Extremely compact and lightweight (B5 form factor) weighing just 0.98kg including battery
- Equipped with a full keyboard with the same key arrangement as an A4-size notebook PC
- Stylish white and aluminium LCD cover
- Standard battery life up to 5 hours

INNOVATIVE TECHNOLOGY MEETS SPARKLING PERFORMANCE

- Intel® Pentium® M Processor Ultra Low Voltage 753 maximises mobile performance and mainsfree operating time
- Expansive storage capacity on the super-slim 1.8" 60GB HDD
- Superior viewing experience with exceptional contrast and brightness on a 7.2" Trubrite™ display with WXGA (1,280 x 768) resolution
- New LED backlight technology reduces LCD's overall weight, thickness and power consumption for an enhanced mobility experience
- Wide range of interfaces, including 2 USB 2.0 ports, PC Card slot for 1 Type II card, SD™ Card slot and i.LINK® port.
- RGB port for easy and convenient connection to external monitor or projector

CPU performance may vary from specifications under certain conditions such as the use of battery instead of AC power, certain external peripherals, certain multimedia applications or network connections, complex modelling software and in areas with low air pressure at high altitude (1,000 metres above sea level) and/or certain temperatures. CPU performance may also vary from specifications due to design configuration. Under some conditions, your computer may automatically shut down as a normal protective measure. To avoid risk of lost data, please make periodic back-up copies. For optimum performance, use your computer only under recommended conditions. Please read detailed restrictions in the product resource guide, visit the Toshiba website: computers.toshiba-europe.com and/or contact Toshiba Technical Support. • One GB means one billion bytes. • Battery life may vary depending on applications, power management settings and features utilised. Recharge time varies depending on usage. Battery may not charge while computer is consuming full power. After a period of time, the battery will lose its ability to perform at maximum capacity and will need to be replaced. This is normal for all batteries. To purchase a new battery pack, see your accessories information that shipped with your computer or visit the Toshiba websites at computers.toshiba.co.uk or computers.toshiba.ie • Small bright dots may appear on your TFT display when you turn on your PC. Your display contains an extremely large number of thin-film transistors (TFT) and is manufactured using high-precision technology. Any small bright dots that may appear on your display are an intrinsic characteristic of the TFT manufacturing technology.
